

## Event Speakers

### Leif Granholm

Senior Vice President, BIM Ambassador,  
Tekla

Mr Leif Granholm has been involved with the development of BIM related software since 1979, when he joined Tekla as a Programmer.

These days Leif participates in the planning of Tekla's BIM strategy, implementation and support. He is Tekla's strategic level representative in BuildingSMART, and currently serves as the Technical Director of buildingSMART Middle East.

### Phil Shanks

Operations Manager,  
Jackson Roxborough

Phil takes an interest in BIM and its future. He is involved in Industry Foundation Classes and has delivered presentations on the topic. Phil also writes an informative blog on the Jackson Roxborough website.

### Brett Taylor

Director, Bornhorst & Ward  
Consulting Engineers

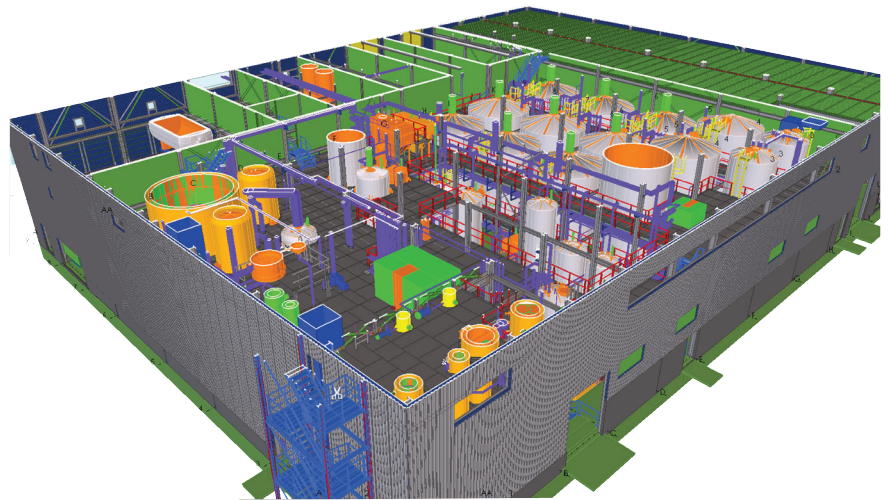

Brett is employed at Bornhorst & Ward as a Structural Engineer and in 1999 he was appointed a Director.

## OPEN BIM™ Collaboration FREE Seminar *"BIM in Focus"*

**Monday 11<sup>th</sup> February**

BIM is often misconstrued as software, when it is in fact a process that incorporates software interoperability. Ideally, the BIM process should span the entire lifecycle of a building or project - from the design phase, through construction, to facility management. Without fully understanding BIM or managing it as a process, users will not be able to fully access the its benefits.

This seminar will explore the capability of BIM and how it should be used to achieve the best outcomes for all disciplines in the process. An international BIM expert as well as local leaders in BIM will discuss BIM, its benefits and future possibilities, and how it is already being used to enhance projects.

### Key topics will focus on:

- Defining BIM: Building Information Management
- Traditional process vs the possibilities: What does BIM offer?
- Automation in information processing: Effective operations in all stages
- Possibilities for better design and opportunities for automation
- Case study on using BIM processes for Design Review

### Agenda:

2:45pm-3:00pm	Arrival and Registration
3:00pm-3:15pm	Welcome and Introduction: Jamie Badar (Pacific Computing)
3:15pm-3:45pm	A new system architecture for OpenBIM: BIM based process, benefits, and opportunities: Leif Granholm (Tekla)
3:45pm-4:30pm	Case Study: BIM processes for Design review (Phil Shanks, Brett Taylor)

### Location:

Brisbane Convention and Exhibition Centre  
Cnr Merivale and Glenelg Streets, South Brisbane
